

WHITE LABS REQUEST FOR YEAST BANKING

Private strains are cultures that are banked by individual customers for their own future use. White Labs will test, isolate, store and propagate your organism. Production lead time is 17 to 30 days. Every Private Strain is analyzed for microbial organisms. The fermentation of the original culture is monitored to ensure optimal performance and then cryogenically frozen. Requires a minimum order of 1.5L for *Saccharomyces* strains and a minimum order of 1L unconcentrated for wild yeast and bacteria.

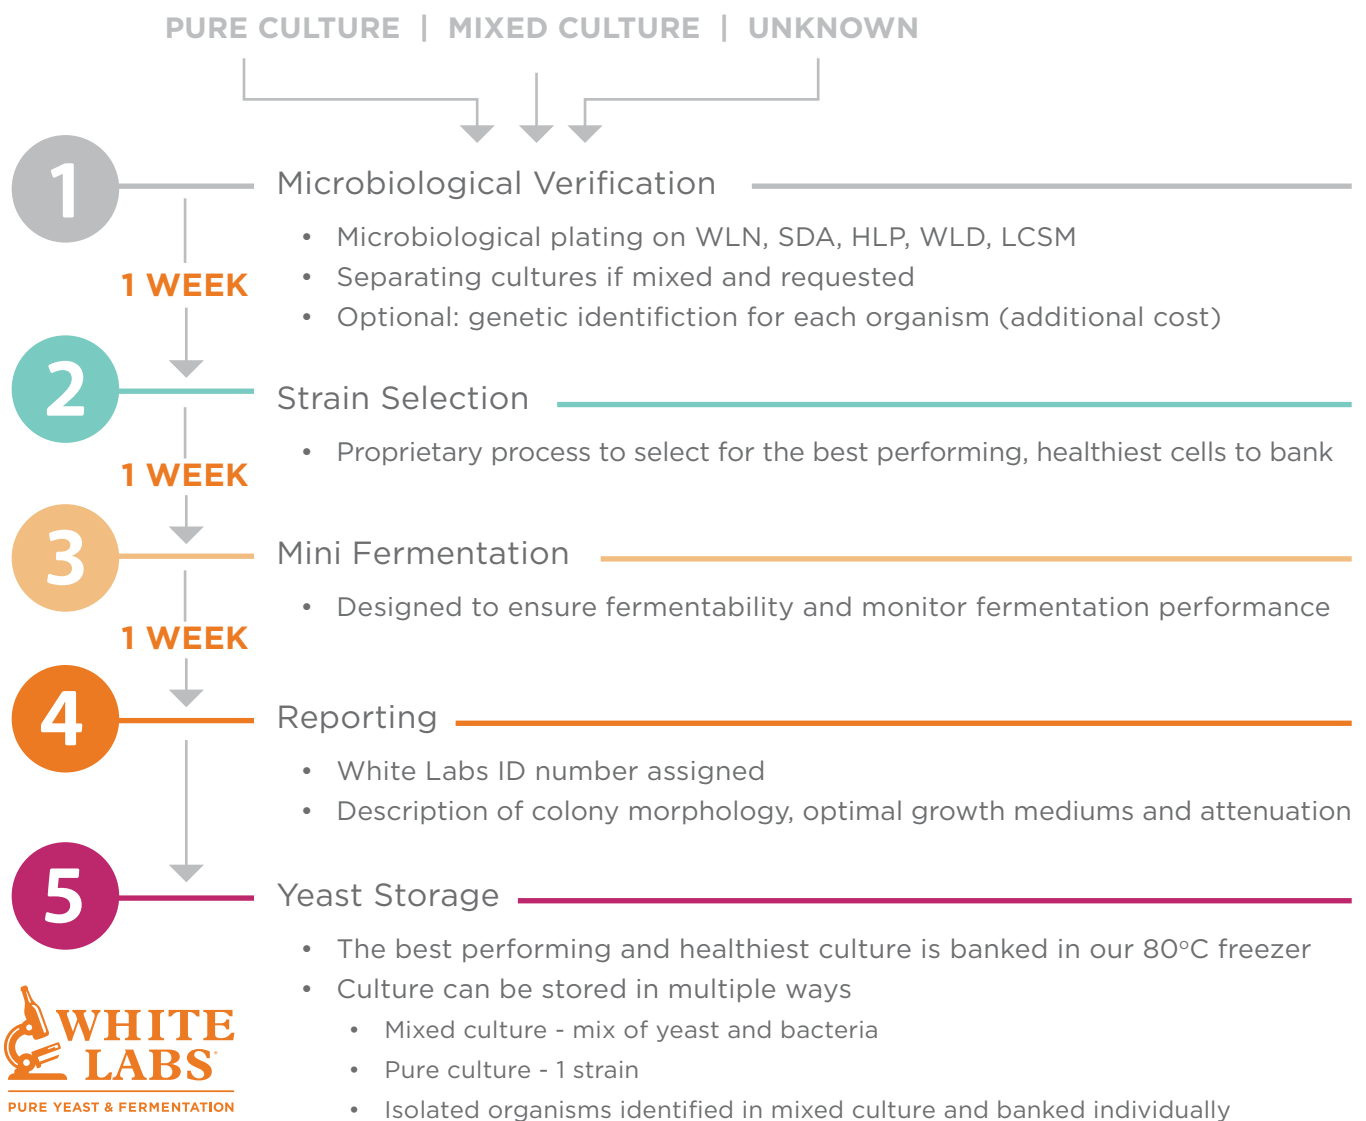

LS6750 | Standard Yeast Banking

Includes strain clean up, petite mutant testing, pH, flocculation characteristics, fermentation graph and the first year of banking.

LS6725 | Mixed Culture Isolation

Includes isolation of multiple organisms, genetic identification of the organisms (genetic sequencing of isolated bacteria or yeast, in bacteria the 16S rDNA region is sequenced and for yeast the ITS region is sequenced) and the ratio of the organisms in the culture. Can be banked as a mixed culture or as individual strains for an additional fee.

(For individual, payment must come from individual, not company)

Additional individuals/companies that have permission to use this yeast strain:

Desired strain name: _____

(As the owner, you may choose to name your strain)

Sample: (check one) Ale Lager Wine Cider Sake Belgian/Saison
 Wild Brett Bacteria Mixed Other

Yeast sample from (slurry, fermentor, end product, etc.) :

Sample characteristics (For yeast banking, this information is helpful to select the healthiest yeast.

Attenuation % range: _____

Flocculation pattern: _____

Flavor characteristics: _____

Any other notes/characteristics: _____

Yeast Banking Policy:

White Labs maintains confidentiality and proprietorship for all strains banked under company and individual requests. We will not release this information to any outside party without the express written consent of the owner. Fees for banking include a set up fee and an annual maintenance fee. If payment for annual billing is not received within 30 days of billing, your private strain may be cancelled and re-setup fees will apply.
